

DISCOVER 2020 Cloud

What is 2020 Cloud?

2020 Cloud is the industry's first online solution for accessing the latest manufacturers' catalogues directly from 2020 Fusion. It allows you to add quality content to your drawings faster than ever before with real-time access to the latest available products—giving you a competitive edge. No more download times, no more unpacking and importing—2020 Cloud content is live and there when you need it!

2020 Cloud operates seamlessly alongside your existing 2020 Fusion catalogues. There's even an integrated Newsfeed, providing you with the very latest information directly from 2020.

What catalogues are supported today?

2020 Cloud currently supports catalogues containing non-configurable items such as appliances and accessories—but this is just the beginning! We are constantly adding catalogues, so be sure to keep an eye on the news feed in 2020 Fusion for further information.

What's more, you can modify content from 2020 Cloud! In 2020 Fusion, you can change a cloud item's attributes just as you would for a traditional item, include resizing, recolouring and changing textures. For example, you can resize rugs or paintings to make them fit a specific space or replace the image shown on a television, computer screen or wall-hanging.

How to get started:

1 Create a 2020 Cloud account

Your 2020 Cloud account is a secure identification that allows you to access your 2020 products and services, including the 2020 community. With your 2020 Cloud account, log in to your 2020 software and manage your profile. Create your account at <https://myaccount.2020spaces.com>

2 Connect to 2020 Cloud

Open 2020 Fusion and select 2020 Cloud using the **Catalogue Items** button on the **Insert** tab. Log in to 2020 Cloud with your email and password.

3 Add 2020 Cloud items to your designs

Click on the **Browse** tab to see catalogue items available in 2020 Cloud. Select the item you want and click **Add** to include it in your design. Then impress your customers with beautiful renderings!

4 Online community help

Use your 2020 Cloud account to visit our online community to find tips and tricks and ask questions in the community forums.
